

Becker Maint^{ten}

Vacuum and Blower Service Agreement

Please complete and return the following agreement to sales@beckerpumps.com.au

Company Name	
Site Address	
Contact	
Phone number	
Email	

The purpose of this agreement is to enable Becker Pumps Australia to best carry out regular preventive maintenance. This will enable you to:

- Extend the life of your vacuum pump
- Reduce utility bills
- Avoid costly breakdowns
- Provide access to a free loan pump in the event of an overhaul.

Upon signing the agreement your pumps will be put on a data base and we will contact you on a 6-monthly basis to ensure the smooth running and reliability of your Vacuum or Blower system.

In addition, you will receive 10% discount on parts used during our service.

(Office Use Only) Agreement no.	
--	--

Equipment		Labour Charge
Oil free Vacuum or Blower below 7.5 kW installed power	¾ hour	\$82.50+ GST
Oil Lubricated Vacuum or Blower below 7.5 kW installed power	1 hour	\$110.00 + GST
Oil free Vacuum or Blower 7.5 kW installed power or above	1 hour	\$110.00 + GST
Oil Lubricated Vacuum or Blower 7.5 kW installed power or above	1½ hours	\$165.00 + GST

The prices shown above are for labour only to carry out the standard inspection service. Travel will be charged at \$110.00 per hour.

We will endeavour to plan your service in our technician's daily routine to ensure travel time is kept to a minimum.

All additional work will require an order.

A quotation will be provided for all additional work.

No additional work will be carried out without your agreement and order.

Remember, you will receive 10% discount on parts used during our service.

For details of parts, costs or if you would like to discuss this agreement in any way please contact our office on **1300 579 177** or our **distributor network**. **Contact details are listed on the bottom of this document.**

Becker Maint^{en}

Please complete and return the below to activate your **Maint^{en}** agreement

Your pump will have two identification/compliance plates; one for the pump itself, and one for the motor. Please ensure you look for the plate shown in the picture to the right.

The pump model number is shown as "type", the serial number is shown as "No", and the motor size is shown as "power required".

Pump model number (type)	Serial number (No)	Motor size kW

I agree with the above agreement and acknowledge the above costs of the Becker **Maint^{en}** program

Name	Signature	Date
(Office Use Only) Agreement no.		

Please understand a safe working environment is your responsibility, our responsibility is to work safely
